PERSONAL PROJECTS

Portfolio Website

- Developed a **responsive** portfolio website using **HTML, CSS, and JavaScript** with sections like About, Skills, Projects, and Contact.
- Implemented a **mobile-friendly** navigation bar with a **dynamic hamburger menu** to enhance accessibility.
- Used modern CSS techniques (**Flexbox, Grid**) and **media queries** to ensure a seamless user experience across devices.
- Integrated external libraries (**Boxicons, Font Awesome**) for visual enhancements while maintaining **clean, modular, and scalable** code.

Nefflix - Movie Recommendation System

- Developed a **React-based movie recommendation system** with **DeepSeek integration** for personalized suggestions and optimized performance through **lazy loading and Netlify deployment**.
- Implemented **Redux** for state management and **Firebase authentication** for secure user login/logout functionality, enhancing user experience.
- Integrated **TMDB API** for fetching movie data and **DeepSeek API** for AI-powered recommendations, improving the relevance of suggestions.
- Designed a **responsive UI** using **Tailwind CSS**, featuring an interactive movie list and dynamic navigation bar for seamless user interaction.

HelloFood – Food Delivery App

- Developed a **React-based food delivery platform** with **Swiggy API integration** for restaurant search and details.
- Implemented **Redux for state management** and optimized performance using **Parcel bundler**.
- Designed a **responsive UI** with **Tailwind CSS**, featuring an interactive restaurant list and dynamic navigation bar.
- Enhanced user experience with **lazy loading, shimmer UI for API responses, and Jest/React Testing Library for testing**.

Tic-Tac-Toe – Classic Game Implementation

- Developed a **React-based Tic-Tac-Toe game** using **Vite** for fast development and optimized performance.
- Designed a **responsive UI** with **Tailwind CSS**, ensuring a seamless experience across desktop, tablet, and mobile devices.
- Implemented **winner and draw detection logic**, providing real-time feedback and an option to restart the game.
- Enhanced user interaction with **interactive buttons, hover effects, and smooth game flow** for an engaging experience.
